

Dr. Yassine Bouchareb Short Biography

Dr Yassine Bouchareb is a senior scientist with more than 19 years experience in the fields of medical imaging, scientific research and teaching in medical physics science in internationally accredited academic programmes. He has been working in world leading institutions in the field of medical physics in the UK, Germany, France and Qatar.

Dr Bouchareb holds a PhD in medical imaging from the University of René-Descartes, Paris and an MBA in healthcare services management, Norwich Management School, London. He is state registered as a Clinical Scientist with the UK Healthcare Professions Council, recognised as a Chartered Scientist by the UK Science Council and a corporate member of the UK Institute of Physics and Engineering in Medicine. Author of several scientific publications, his main research areas have been the development and assessment of imaging applications and advanced image processing methods as well as the evaluation of the efficacy of drugs for heart and cancer diseases.

Dr Bouchareb has been involved in supervising and training junior cardiologists/surgeons, radiology residents and medical physicists in imaging related clinical research projects as well as teaching and supervising medical physics MSc and PhD students. He is a member of several UK and European professional bodies, medical imaging societies, scientific committees and specialised Scientific Interest Groups, founding member of charitable associations and acting as scientific reviewer in international journals.
